

Finber Tekstil places follow-up order to Krantz

The company Finber Tekstil, based in Bursa / Turkey, has placed a follow-up order for a yarn dyeing machine with a capacity of 1t. Because of the very good experience with the piece dyeing and 3 dyeing machines already bought before when the dyehouse was founded, Finber now decided to buy another machine from KTM-Krantz.

In addition to the 4 beam dyeing and 3 piece dyeing machines from Krantz, the company now purchased a yarn dyeing machine with a capacity of 1t. Fixed and unfixed PES and blended yarn qualities between 20dn and 300dn can be dyed on the new machines.

The machine meets all standards regarding occupational safety & environmental regulations and is prepared and equipped for industry 4.0.
